PERSONAL INFORMATION

Date of Birth: May 28, 2006 Age: 20
Civil Status: Single Nationality: Filipino

CAREER OBJECTIVE

I am seeking the position of IT Support Specialist, where I can leverage my academic experience in system analysis, application testing, and issue reporting, as well as my BSIT education, to assist users in resolving technical issues and further develop my technical skills.

EDUCATIONAL BACKGROUND

Northeastern College 2024–2026
Bachelor of Science in Information Technology (BSIT), Graduated 2026

Santiago City National High School 2022–2024
Senior High School, ICT Strand, Graduated 2024

Santiago City National High School 2018–2022
Junior High School, Graduated 2022

Santiago South Central School 2012–2018
Elementary, Graduated 2018

Santiago South Central School – Kindergarten

TECHNICAL AND RELEVANT SKILLS

Technical (academic exposure): Flutter and Dart, Supabase, PHP, MySQL, PDO, XAMPP; database-backed application concepts; authentication and access-policy concepts

Analysis and testing: System analysis, requirements review, functional testing, workflow validation, issue identification and documentation, technical research and documentation

Professional: Teamwork, communication, attention to detail

ACADEMIC PROJECT EXPERIENCE

Tagpuan Cafe Information Management System (TCIMS)
System Analyst

- Reviewed project requirements and analyzed intended system functions and workflows.
- Helped clarify what the system should do and organize system requirements and information.
- Communicated requirements and expected system behavior to the project team.
- Contributed to project research and documentation for a web-based internal system using PHP, MySQL, PDO, and XAMPP.

LifeLink – Blood Donation and Donor-Matching Mobile Application
System Tester (Flutter and Supabase)

- Tested application features and workflows for profiles, blood donation requests, donor offers, scheduling, and messaging.
- Checked observed behavior against expected behavior and recorded issues for follow-up.
- Collaborated with the project team on test findings.

- Gained exposure to authentication, database-backed records, and access-policy concepts.
